

Declaration about Export Administration Regulations (EAR) "Dual Use", ECCN and ITAR

Diotec products are **neither** subject to the "Dual Use" regulation **nor** to **ITAR**, and as such they **do not need** an **ECCN number**.

The Council Regulation (EC) No 428/2009 as of 05 May 2009 defines "dual-use items" as items, including software and technology, which can be used for both civil and military purpose, and shall include all goods which can be used for both non-explosive uses and assisting in a way in the manufacture of nuclear weapons or other nuclear explosive devices. Declarable goods are categorized by a so called "ECCN" (Export Control Classification Number). According to category 3, ECCN 3A001.h, only power diodes with the following characteristics

- Rated for a maximum operating junction temperature greater than 488K (215°C)
- ...

are subject to the dual-use regulation. None of the Diotec devices has a $T_j > 215^\circ\text{C}$. As such, our products are defined as

"Not controlled"

(civil articles not subject to control and so without any re-exportation constraints)

The International Traffic in Arms Regulation "ITAR" updated in the year 2011 regulates and controls the import and export of defence related articles and services mentioned in the The United States Munition List Annex, Section 71 a) of the Arms Export Control Act (22 U.S.C.§2797). According to Category XI-Military Electronics, under 3c) Components, Parts, Accessories, Attachment and associated equipments are exempted if they are in commercial items. Diotec devices are designed for **commercial use**.
